Front Cover & Below lot 200 - Imperial German PO8 Pistol captured at the battle of Le Quenoy
" They Came From The Uttermost Ends Of The Earth "

On the morning of the 4th November 1918, enemy machine gun fire from the front and flank was holding up the advance of the front line. Rifleman Norman Coop, 3rd Battalion, NZ Rifle Brigade who was No1 of a Lewis gun team, disregarding his own safety worked forward in to the open to draw fire of the guns and disclosed thier position. This enabled Rifleman Pederson who was his number 2 of the Lewis gun team to bring his gun into action and disable the enemy guns. Rifleman Coop showed fearless bravery and his actions saved many casualties and enabled the successfull advance. His courage greatly inspired his men and for this act he was awarded the Military Medal. In an exert from his diary he recounts how "they did a little ratting the dead and took a nice Luger pistol from a Fritz whom had no further use for it..." This capture pistol is an important piece of New Zealand's military history from one of our greatest victories and will be sold 100 years to the day it was captured.
